HOPKINSVILLE, KENTUCKY.

JOHN W. KERN IS NOTIFIED

Both Bryan and Kern Given
Great Popular
Ovation.

HATS THROWN IN AIR.

Next Vice President Makes
Speech to 15,000
People.

Indianapolis, Aug. 26.—John W. Kern, the Democratic candidate for Vice President, was formally notified in Indianapolis yesterday of his nomination. The speech of notification was delivered by Theodore Bell, and addresses were made by Mr. Kern, W. J. Bryan and Thomas R. Mar-

JOHN W. KERN.

shall, the Democratic nominee for Governor of Indiana. The meeting was held in the elaborately decorated Colosseum at the State Fair grounds, and was attended by many thousands of people regardless of party. Mr. Bryan and Mr. Kern received ovations when they appeared to speak.

LATHAM LOT

Is Being Cleaned Off and the
Rubbish Removed.

Mr. Chas. H. Hisgen, Mr. Jno. C. Latham's representative in the city, has begun the work of clearing off the debris and rubbish that has been on the site of the warehouse burned by night riders last December. A part of the lot was given to the Methodist church, but Mr. Latham changed his plans and gave the church another lot. It is understood that his purpose is to make a little park similar to the one east of Hotel Latham. At any rate, he has no immediate intention of building on the lot, which takes up nearly an entire square. The walls of the wrecked building were demolished last winter.

BAND CONCERT

Was One of the Most Enjoyable of the Series.

The Lebkuecher band concert Tuesday night was at the intersection of Main street and Second Avenue. The program was an excellent one and the attendance was perhaps larger than any previous week. The order was unusually good, the only unpleasant feature being the attempt of people in the vehicles to drive through the crowds massed about the stand. Steps will be taken to stop this trouble in the future and make vehicles of all kinds go around the crowds.

Land Sale.

Planters' Bank & Trust Co., Exr. of Mrs. L. J. Elgin, deceased, sold

SIXTEEN FINE THOROUGHBREDS

Will Leave Here For Sheep-
head Bay This Even-
ing.

FOR SALE SEPTEMBER 3.

Annual Shipment of Fine
Race Stock to the East-
ern Market.

Dr. M. W. Williams, Ward Claggett and John White will leave for New York this afternoon with sixteen head of thoroughbred yearlings, that will be sold at Sheephead Bay Sept. 3.

Ten of them belong to Williams & Radford, four to Mr. White and two to Mr. Claggett. They are the get of Albert, Herbert and Ormus, the last named being the new \$6,000 horse bought two years ago.

The shipments of young stock to the East are usually made in June, but owing to the disturbed condition of the market growing out of adverse legislation last spring, they concluded to wait for a fall sale.

The yearlings are as fine a bunch of colts and fillies as were ever seen in this section of the State. They have developed much in the last three months and are in the finest of condition.

ED W. MOORE.

Will succeed Gus T. Brannon as Cashier of Commercial and Savings Bank.

E. W. Moore will leave Wednesday for Hopkinsville, where he will accept a position as cashier of the Commercial and Savings Bank of Hopkinsville. He will succeed Gus T. Brannon, who goes to Birmingham, Ala., to accept the presidency of a wealthy bank. Mr. Moore was formerly assistant cashier of the Eagle Bank of Owensboro. He is one of the best known young bankers in this section of the state, and he goes to his new position with many Owensboro well-wishers.—Owensboro Inquiry.

Mr. Moore is a son of Mr. W. H. Moore, of this city. He arrived last night and will enter upon his duties Sept. 1st.

AID FOR DROWNING.

Approved Method of Applying Artificial Respiration.

The most approved method of resuscitation in cases of drowning and asphyxiation was described by Professor Edward A. Schaefer of Edinburgh, Scotland, in a paper on artificial respiration, read to the section on surgery and anatomy of the American Medical Association, which met recently at Chicago. Professor Schaefer, a member of the Royal Medical and Chirurgical Society of London, apportioned to investigate the subject, and his paper was the result of that body's inquiry.

The method is one which can be used by one person without fatigue and which probably results in the case of drowning or asphyxiation.

"First, lay the patient flat on his face," said Professor Schaefer. "This throws the tongue forward out of the mouth, leaving the air passages unobstructed, and does away with the necessity for holding the tongue. It also permits the water to run from the mouth."

"Kneel beside the patient and place the hands one on each side of the backbone in the small of the back, about the line of the lowest ribs."

"Then by throwing weight forward on the hands a vertical pressure is effected with little fatigue to the operator."

"The downward pressure should last three seconds. This empties the lungs."

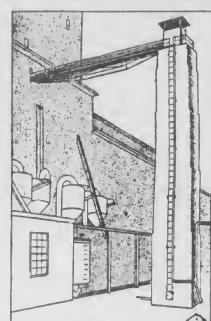

"The pressure should then be stopped for two seconds, and the lungs will naturally refill. This process should be repeated twelve times a minute."

"Careful tests by the physician show that this method gives more than the normal amount of air to the patient, while other methods give much less than the amount ordinarily breathed."

BLEACHING TOWER.

New Method of Purifying Germ Laden and Discarded Grain.

The latest type of grain bleaching tower is constructed of concrete, says Popular Mechanics. The bridge connecting the working elevator is a trough containing a twelve inch screw conveyor, by which the grain is carried into the bleaching tower. As it falls over the shelves steam permeates

GRAIN BLEACHING TOWER.

through the mass long before the sun's full fumes are reached. Another conveyor at the bottom removes the purified grain.

The experience of elevator men who have used this method of running grain through the elevators shows there is little danger of fire from such a source, but the majority of insurance companies request that they be placed outside. The bleaching tower is used for cleaning the discarded coats of grain and destroying germs. Ours are the best and most reliable, and when grain are turned out a rich yellow. Wheat and barley are also run through bleaching towers when their condition needs it.

Photographic Fire Alarms. An ingenious device runs through the telephone wires, forming an effective fire alarm. In the building to be protected telephonic transmitters provided with photographic rolls containing a set of words precisely describing the location of the fire are connected in the various rooms with thermostats. When the temperature reaches a certain point the thermostats automatically polarize the telegraphs in front of the transmitters and set them at work grinding out the telltale words, which are heard over the wire at the fire engine station, informing the firemen where they should go.

How to Clean Engine Paint. Engine paint may be cleaned by applying a solution of one gallon water, four ounces of borax and one-half pint of lard oil. Stir this into a perfect emulsion and apply a coat of it to the surface of paint which is to be removed. For a little while, rub off clean with a rag or waste, says the English Mechanic. Be sure to remove the composition before it becomes dry. Add more borax if the solution is not strong enough.

Treatment of Dog Bites. The immediate treatment of dog bites or scratches is very important. These should be squeezed and sucked and pressed so as to make the blood come freely, then should be burned to the very bottom with a blunt, partly burnt match soaking wet with pure carbolic acid, to be followed by the

An Actor's Tribute to Dickens. While the world at large has gained by Charles Dickens' devotion to literature, the stage lost one who, if he had chosen to adopt it as his calling, would probably have been the greatest actor of his time. None who had the good fortune to see the plays in which he acted can forget his mastery of stage technique. None who can remember his readings can forget his vivid and lifelike powers of characterization. Comedy and tragedy, humor and pathos, he came readily to his task. By the mastery of the actor's art terror, tears and laughter were compelled at his command as by his pen he compelled them in his writings.—John Haile.

Heavy, impure blood makes a muddy, pimply complexion, headaches, nausea, indigestion. Thin blood makes you pale, pale, sickly. Burdock Blood Bitters makes the blood rich, red, pure—restores perfect health.

A Long Wait Want. "You are something of an inventor, are you not?" asked the caller.

"I have done a few things in the inventing line," answered the man in the repair shop.

"Well," said the other, unwrapping a package he had brought with him, "here's an eight day clock that has been in the family for sixteen years. What I want you to do is to put an alarm on it that will ring for two hours if somebody doesn't go and wind it on the morning of the eighth day."—Chicago Tribune.

For a mild, easy action of the bowels, a single dose Doan's Regulates is enough. Treatment cures habitual constipation. 25 cents a box. Ask your druggist for them.

Salmon in the Hudson. That salmon were plentiful in the Hudson 300 years ago is attested by an entry in the log book of Juct, the mate of Hudson in the Half Moon, which sailed up the North river on Sept. 15, 1600. The record says:

"The morning was misty until the sun arose; then it cleared. So we weighed anchor with the wind at south and ran up the river twenty leagues, passing by high mountains, and a very great depth, six, seven, twelve and thirteen fathoms and great store of salmon in the river."

Vary Polite.

Two miners were returning from a lecture at the village institute when one of them after a thoughtful pause remarked:

"Say, Bill, I don't see the necessity of bringing chaps from London to teach us about manners in the 'ome. We ain't had as that feller made out."

"Of course we ain't," replied Bill.

"Not by a long way," went on the man. "I never swears before my wife."

"No more don't I" put in Bill. "I allow see ladies fust. That's me."—London Fun.

Dr. Thomas' Electric Oil is the best remedy for that often fatal disease—croup. Has been used with success in our family for eight years."—Mrs. L. Whiteacre, Buffalo, N. Y.

Fair Warning.

A cat belonging to Mrs. Jones had caused great annoyance to the small boys of the neighborhood by killing some of their pets, so they decided to set a trap for it. Dwellight, a little boy of seven, with a very tender heart, was so much distressed at the innocent cat would suffer so, he printed it on the trap:

"This is for Jones' cat only."—Delineator.

CASTORIA. It's Kind You Have Always Bought

Antiquity of Barbers.

The occupation of a barber is an institution of civilized life and is known only in those nations that have made a certain progress in civilization. It is referred to in Ezekiel, "And thou, son of man, take thee a barber's razor and cause it to pass over thine head and upon thy beard." We do not read of barbers at Rome till about the year 200 B. C.—New York American.

Stop Itching Instantly. Cures piles, eczema, salt rheum, tetter, itch, hives, herpes, scabies—Doan's Ointment. At any drug store.

The Pipefish.

The pipefish take care of their young in a manner that is entirely peculiar. They lay their eggs in a sort of fold on each side of its body. Beneath the "flop" he keeps the eggs until the young are hatched and sufficiently grown to take care of themselves. While in the "flop" they are fed by the mother, upon whom falls the duty of foraging around for food.

THE STATE UNIVERSITY

LEXINGTON, KENTUCKY.

The State University, Lexington, Kentucky, offers the following courses, namely, Agricultural, Mechanical Engineering, Civil Engineering, Electrical Engineering, Mining Engineering, Classical and seven Scientific courses each of which extends over four years and leads to a Bachelor's degree; also a department of Law and a Department of Education, which last has been established instead of the Normal School. Persons who enter this department prepare for advanced work in pedagogy and are granted a Bachelor's degree in this subject when completed. The Academy for preparatory instruction is retained.

County appointees receive free tuition, privilege of residence in the dormitories, fuel and light, traveling expenses, if they remain ten consecutive months, or one collegiate year.

The laboratories and museum are large, well equipped, comprehensive and modern. Military Science is fully provided for as required by Congress.

The graduates in the several courses of study readily find employment with liberal remuneration. The total number of matriculates for last year was 1078. Each department has a specialist at its head, with the necessary number of assistants.

Young women find an excellent home, with board and lodging, in Patterson Hall, which is well equipped with all the modern conveniences, bathroom, hall for physical culture, at \$3.00 per week. All courses of study in the University are open to women on identical conditions with those applying.

The completion of the Agricultural, Mining Engineering Laboratory and Education buildings afford ample and commodious quarters for these departments, which are rapidly increasing in the number of matriculates.

For catalogues, methods of obtaining appointments, information regarding courses of study and terms of admission, apply to

JAMES K. PATTERSON, Ph. D., LL. D., President

or to D. C. FRAZEE, Business Agent.

AUG. 27 1908.

DEMOCRATIC TICKET.

FOR PRESIDENT
WILLIAM JENNINGS BRYAN,
OF Nebraska.

FOR VICE PRESIDENT
JOHN WORTH KERN,
OF Indiana.

FOR CONGRESS
A. O. STANLEY,
OF Henderson.

A great fire in Constantinople Sunday destroyed 2,000 buildings and 7,000 people are homeless.

By-the-way, who got Gov. Will's \$500 reward for convicting Dr. Champion?

Walter Galloway, of Pendleton county, took Gov. Wilson at his word and shot a night rider who was making a bonfire of his barn.

Mr. Bryan's dates in Nashville and other Southern states have been canceled and all of the speeches he makes will be in doubtful States.

The Success Magazine for September has an article by John L. Mathews on the "Reign of Lawlessness in Kentucky" that brings out many new points in the struggle for law now going on in Kentucky.

Baron Herman Speck Von Sternberg, German Ambassador to the United States, who died this week in Germany, went to Europe May 16. He had been in bad health for some time. His wife was Miss Lillian May Langham, of Louisville, Ky. He was 56 years old.

"Ik Marvel" is dying at "My Farm at Edgewood," Conn. He is about 85 years old. It has been more than fifty years since he wrote "Reveries of a Bachelor" and "Dream Life," well known more than a generation ago. His name is Donald G. Mitchell, but to many thousands of readers he is "Ik Marvel."

Fritz Scheff's divorce from Baron von Bardeleben having recently been made absolute, it is announced that the singer will soon marry again. John Fox, Jr., the Kentucky writer, is the fortunate man. Mr. Fox is one of the younger school of American novelists, who made his mark by developing comparatively unknown phases of life.

Hon. John G. Miller, of Paducah, is a candidate against Circuit Judge Bill Reed, the fearless judge whose court made the first night rider conviction. Mr. Miller was chief counsel for the Hollowells in their big damage suit in the Federal Court against Caldwell county night riders and the organization of course has no love for him. The people of the Marshall-McCracken district are fortunate in having too such men as Judge Reed and Judge Miller to choose between.

Do not forget the Christian County Horse Show at Pembroke Sept. 3 to 5. This attraction has come to be one of the principal events of local interest every year and we hope to see the Pembroke people strike a spell of good weather this year and make a big success of the show. They have had several of the annual shows marred by rain. The railroads will of course give cheap rates and everybody should arrange to take in the show.

State of Ohio, City of Toledo, 1st sa.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the city of Toledo, County and State business, and that said firm has not paid the sum of One Hundred Dollars for the last three years to the State of Ohio.

A. W. D. 1886
Frank J. Cheney,
Notary Public.

Hairy Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the

Sentiment seems to be practically unanimous among Christian county Democrats against the calling of a judicial primary election for this fall. The people are too much occupied with other matters to give attention to contests within the party at this time. It is not believed that the committee, which meets Saturday, will call a primary before next spring.

The final week of the contest between Kimball and Cantrill in the Seventh district, for Congress, finds the feeling so bitter that Cantrill's friends have resorted to the always hurtful expedient of hissing down Kimball speakers. The tobacco question is playing a big part in the race and the triumph of Kimball will be taken as a severe blow to the Society of Equity, of which Cantrill is the State President.

Frank cannot truthfully claim for the Republican party all of the credit in Kentucky in the contest between law and anarchy. Hopkinsville, a Democratic city, was the first city in Kentucky to form a Law and Order League to fight night riders. Judge W. M. Reed, a Democrat, was the first judge to convict a night rider. In the Democratic counties of Marshall and Calloway more than 100 indictments have been returned and a majority of the soldiers doing duty in a dozen counties of the State are Democrats. In this county last June the three men tried for night riding were all Republicans, and the noisiest among all the night riders of Western Kentucky—with possibly one exception—is a Republican not yet indicted.

Woman's Home Companion For September.

The most beautiful queen on any throne, this is what Kellogg Durland calls the Empress of Russia, in his great series of articles, entitled "The Romance of an Empress," which begins in the Woman's Home Companion for September. Mr. Durland, who is the author of "The Red Regal," spent a year in Russia, getting together all the facts of the romantic and sad life of the most powerful queen in the world.

In this issue Irving Bacheller begins a new series of Cricket Tales, which bids fair to be even more popular than was his famous "Eben Holden."

Other stories are "The Golden Wedding," by Alice Brown; "The Dilect," by Juliet Wilbur Tompkins; "The Girl in the Mirror," by Hubert Foother; "Dare You to Love Me?" by Annie Hamilton Donnell, and "The Minister's Barrels," by Hettie Bosley Goldrick.

Jack London on his trip around the world, which he is making for the Woman's Home Companion in his little boat, the Snark, has stopped long enough to send to the magazine from Tahiti a description of "The Nature Man" whom he ran across in that distant Pacific island.

Jean Webster, who wrote "When Patty Went to College," has been in Japan and tells in the September number how she, with three or four girl friends, set up housekeeping in "The House of Wistaria Water."

Paderewski has selected for Companion readers the best program of modern Polish music, which is accompanied by the full music of one of the most beautiful of the numbers in the great pianist's program: "Stojowski's Folk Dance."

The September number is the great Fall Fashion Number of Woman's Home Companion, and contains many things of interest for every woman.

Campaign Novelty.

We are indebted to Col. Ike Hart for a "Washington-Bryan Combination Picture," issued by a Cincinnati man. It is a three leaf folder with pictures of Bryan and Washington side by side. On the front is another picture showing the gray hair of Washington with a hole in the card removing the face. This when folded over the Bryan picture, turns it into a fairly correct likeness of Washington, easily recognizable.

Desperado Killed.

Glasgow, Ky., Aug. 26.—Jess Coe, the noted negro desperado who killed Patrolman Charles Russell at Indianapolis September 3, 1906, and for whom a reward of \$1,500 was offered, was killed yesterday at 11 o'clock in Martinsburg, on Cumberland Avenue. The negro was shot in the head and was taken to the hospital, where he died.

PRESIDENTS' RELIGION.

Three of Them Have Been Unitarians.

Washington was a member of the Episcopal church. Jefferson, though accused of being an atheist, died a believer in the Divine Being, as asserted by his daughter.

John Adams was a Unitarian, and his son, John Quincy Adams, was a Unitarian, born into the church.

Madison and Monroe were Episcopalians. Jackson was an unbeliever, though devoted to his wife, who was herself a consistent member of the Presbyterian church. After her death Jackson joined the church and built a church near his home. The Hermitage.

Van Buren was a constant attendant, though not a member, of the Dutch Reformed church at Kinderhook, N. Y. William Henry Harrison was a communicant in the Episcopal church, as was his successor, John Tyler.

James K. Polk never united with any church, though on his deathbed he was baptized by a Methodist clergyman. During the presidency, out of deference to the religious opinions of his wife, he attended the Presbyterian church. Taylor was an attendant of the Episcopal church, but probably not a member. Millard Fillmore was a Unitarian; Pierce a Congregationalist; Buchanan a Presbyter.

Lincoln never joined any church. He was in his early years a skeptic, but in his later years a deeply religious man. Johnson was of the same religious views and tendencies as Lincoln. Grant was an attendant of the Methodist church, and Hayes was a member of that denomination. Garfield was a preacher in the Church of the Disciples. Arthur was an Episcopalian. Benjamin Harrison was a member of the Presbyterian church, for many years holding the position of elder in his church at Indianapolis. Cleveland was a Presbyterian, the son of a Presbyterian minister. President McKinley was a Methodist. Mr. Roosevelt is a member of the Dutch Reformed Church.

CRYING FOR HELP.

Lots of it in Hopkinsville
But Daily Growing Less.

The kidneys cry for help. Not an organ in the whole body so delicately constructed.

Not one so important to health.

The kidneys are the filters of the blood.

When they fail the blood becomes foul and poisonous.

There can be no health where there is poisoned blood.

Backache is one of the first indications of kidney trouble.

It is the kidneys' cry for health. Heed it.

Doan's Kidney Pills are what is wanted.

Are just what overworked kidneys need.

They strengthen and invigorate the kidneys, help them to do their work; never fail to cure any case of kidney disease.

J. D. Christian, living on Clarksville Street, Elkhorn, Ky., says: "My kidneys were disordered for a long time, and although I took many remedies, I never received relief until I used Doan's Kidney Pills. They were so entirely satisfactory that I'm constantly recommending them to other sufferers of kidney complaint. Doan's Kidney Pills certainly rid my system of kidney complaint in a remarkably short time."

Plenty more proof like this from Hopkinsville people. Call at L. A. Johnson & Co.'s drug store and ask what their customers report.

For sale by all dealers. Price 50 cents. Fester-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doans—and take no other.

Sept. American Magazine.

The September American Magazine is fairly alive with good reading. Charles Roman leads off the number with "The Wonderland of Delirium." It is a record of the personal experiences of the author, who, within the last year, lived through eighteen days of delirium in a Washington hospital. As a psychological document, it is a story of surpassing interest and a place of writing it

ANOTHER SUIT.

This Time Bracken County Men Are Defendants.

Dayton, O., Aug. 25.—W. S. Henderson, formerly of Bracken county, Ky., today filed suit for \$15,000 against sixteen members of the Bracken county tobacco association, charging that they forced him to cancel his tobacco contracts and drove him out of the state.

Strike Still On.

Mayfield, Ky., Aug. 25.—The printers' strike is still on. The Daily Monitor has not been issued since Saturday, Aug. 15, but will resume publication this week, as it has secured a force of nonunion men. The Messenger has never missed an issue and is making the fight alone. Editor Lemon had enough printers in his own family to print the paper as usual, and therefore overcame the embarrassment.

Report Is Denied.

Officials of the American Tobacco Company at New York said that no decision to retire from Kentucky has been made, but that the headquarters of the field buyers had been removed from Lexington to Cincinnati.

To Sharpen Scissors.

Cut them rapidly on the neck of a small glass bottle, or better still, on a ground-glass stopper. It trues the edges and makes them cut like new.

Residence Sold.

J. F. Ellis has sold T. L. Morrow's residence on 4th avenue, East.

LABOR DAY

All Citizens Urged to Lay Aside Work Sept. 7.

Frankfort, Ky., Aug. 26.—No persons shall be forced to labor on September 7, which Gov. Cox to-day designated as Labor day, according to a proclamation which he gave out. The proclamation is as follows:

LABOR DAY PROCLAMATION.

The General Assembly has provided that the first Monday in September of each year shall be known as Labor day. In accordance with this enactment I hereby proclaim Monday, September 7, 1908, as Labor day.

This day is set apart as a legal holiday, and no person shall be compelled to labor on said day by any person or corporation. It is a day given over to the working class of our citizens as a holiday. On this day let all our people enter into the spirit of the occasion, and put aside for the time their occupations, and pay a fitting tribute to those in whose honor the day is dedicated.

In testimony whereof I have subscribed my name and caused the great seal of the Commonwealth to be affixed. Done at Frankfort, this twenty-fourth day of August, one thousand nine hundred and eight, and in the one hundred and twentieth year of the Commonwealth.

WILLIAM H. COX, Acting Governor.

BEN L. BRUNER, Sec'y of State.

RIFLED THE MAIL

Negro Caught in Act by Post- office Inspector.

Paducah, Ky., Aug. 26.—The mysterious disappearance of letters, covering a period of three weeks, has been cleared up by the arrest of Robert McClure, the negro night janitor at the post-office, who fell into a trap set for him by Inspector Morgan Griswold. The inspector caught him opening a registered letter. McClure made a confession, but did not state the amount of money he had stolen.

McClure was secretary of the Republic County Committee and superintendent of the Washington St. African church Sunday-school. He had been employed at the post-office four years.

Curious Accident.

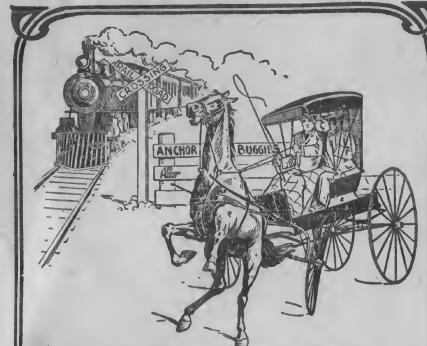

Hodgenville, Ky., Aug. 25.—The Rev. S. J. Sparks, of Buffalo, suffered a peculiar accident to his right eye Sunday morning on his way to church at Oak Hill, where he was engaged in a protracted meeting. The horse's foot came in contact with a gravel and the gravel struck the lens of the glasses Mr. Sparks wore. Several particles of the glass were driven into the right eye. Mr. Sparks left for Louisville to have an operation performed.

Buggies Must Go Come And Get Our Prices.

Don't be afraid, it's an Anchor.

Webster's Dictionary describes ANCHOR as follows: "That which gives stability or security—that on which we place dependence for safety."

The user of an Anchor define it as "A buggy which insures security—on which to place dependence for safety."

Why does the Anchor insure security?

Because it is built right—with the strongest gear, shafts, body, etc., ever constructed. Strongest, because of the high grade of material and the way it is built.

If you appreciate high-class mechanical construction, you'll appreciate the Anchor.

It's a stylish buggy too, comfortable and easy riding.

Price? Well, it's too GOOD for the money.

Mrs. Elizabeth H. Martin

BAD FRONTAL HEADACHES

EYES BOthered Me

Dropping in My Throat

Mrs. ELIZABETH H. MARTIN,
332 Bowen Avenue, Chicago, Ill.,
Chaplain Garfield Circle, writes:

"Peruna has been a blessing to our family for a good many years, as we have all used it for our children and our children's children. I am giving it to all of my children with the best of results."

"I found that a cold left me with a cast of the head in a very bad form. My head was stopped up, I had frontal headaches, my eyes bothered me, and there was a nasty dropping in my nose which nauseated me and made it impossible many times for me to eat my breakfast."

"As soon as I began to use Peruna I found it relieved me, my head soon cleared up and in a remarkably short time I was rid of castor."

"I can, therefore, give my personal experience with Peruna in the medical and am pleased to do so."

"Peruna who prefer sold to liquid medicine can now secure Peruna tablets, which contain the medicinal ingredients of Peruna."

Man-in-the Ideal Laxative.

Governor's Proclamation

FOT GOOD ROADS.

At the Good Roads Convention, held at Eminence in July, a temporary State organization was effected for Kentucky, and the meeting adopted a resolution looking to a permanent State organization of a Good Roads Association at a meeting of the State fair in Louisville on Thursday, September 17th, 1908, and the meeting requested the Governor of Kentucky to invite all the people of the State to attend or send representatives to that meeting, so that it might be large enough and representative enough to interest the whole State in the movement for good roads.

The resolution has the heartiest sympathy of the Governor, and for the sake of Kentucky and the comfort, happiness and convenience of our people, I invite all the people who take an interest in good roads to attend the meeting to be held at the State Fair in Louisville on September 17, 1908, to effect a permanent organization of a Good Roads Association for Kentucky.

It is earnestly hoped that the fiscal courts, which have charge of road construction in the several counties, should attend in bodies with their Road Commissioners and Supervisors, as far as possible, and that the County Judge of each county and the Mayor of each city will appoint at least five delegates to this Convention, and that each Commercial Club or Board of Trade should also send at least five delegates, and the State Development Association and all representatives of the press and every one interested in the building and keeping up of good, safe public highways are earnestly invited to attend.

A strong, permanent organization of the ablest and most earnest citizens in this whole State should be made at this meeting, and that Association will be able to make all the people learn and understand what a blessing, benefit, profit and help good roads will be to Kentucky. The Association will be able to interest those who are now indifferent and to stimulate and encourage county and local organizations for the good roads movement.

The last General Assembly passed an act to submit to popular vote an amendment to the Constitution which will authorize the State to aid in the building of good roads. The most prosperous States in the Union now all have Constitutions and Statutes which help build good roads. Our Constitution was not framed to help build good roads, and it is well

worst and the people poorest, they cannot build suitable roads without State help, and our Constitution ought to be amended in the interest of this movement. It will not be difficult to avoid the mistakes which were made in the old turnpike road movement, and which gave rise to a great deal of feeling against State help for good roads. The proposed amendment will be submitted to the voters at the November election of 1909. Its adoption will depend largely upon the result of the proposed State Good Roads Association, which should be able to arouse public interest and mold public sentiment in favor of its adoption.

There is nothing which hurts the people more or costs the people more or keeps them back more than bad roads; they make it hard to leave home, hard to get back; hard to haul, hard to visit; hard to get to Heaven sometimes. There is nothing that man can think of that will do more to help the people than to make thangood roads, which make it easy to travel, easy to bring goods home, easy to haul your produce and manufactures to market, easy to go to school and church, and easy to avoid many bitter thoughts that bad roads cause. A good road doubles the value of the land, doubles the profit of the farm, doubles the comfort of the family, doubles the beauty of the county and town, doubles the chance to make a living; doubles the attendance at church and school; doubles the willingness of the children to stay at home instead of flocking to the cities; doubles and sometimes quadruples the load you can haul; cuts in two the time it takes to go anywhere or get back again; cuts two the cost of hauling; cuts in two the wear and tear on wagons and harness and stock; does away with all the worries of bad roads, and will carry life, education, and blessings to the remotest counties of the State. Everybody is invited to the Good Roads meeting, rain or shine.

There will be a great deal that is interesting and instructive in regard to good roads at this meeting, on the best methods of locating, surveying, building, and keeping up turnpike and gravel roads. This movement has my most earnest endorsement, and I trust that it will prove to be a great blessing to Kentucky and all of our people.

I am requested to say that any information in regard to the meeting can be had by addressing Mr. C. M. Hanna, President, or Hon. J. W. Newman, Secretary, of the Temporary Organization for Good Roads, care State Fair Office, Louisville, Ky. [Signed.] AUGUSTUS E. WILSON,
Governor of Kentucky.

August 14, 1908.

OLD CROP FIRST.

The 1908 Crop Will Not Be Sold Until 1907 Is Off.

At a meeting of the Board of Directors of the Planters' Association at Guthrie last week it was ordered that not a pound of the 1908 crop of tobacco be sold until the old crop is all sold. It was also ordered that the county secretary be allowed sixty dollars for his services per year. He will be required to make a list of all the members of the association in his county and mail to Mrs. N. E. Green, secretary of the association, at Guthrie.

The schedule of prices was not changed. A reduction of acreage of the 1909 crop is recommended.

J. T. Myles, of Mayfield, one of the official graders, resigned and his duties are being performed temporarily by C. N. Warfield.

White and Stamper.

Jackson, Ky., Aug. 26.—Judge J. B. White, of Irvine, and Howard Stamper, of Campton, were chosen by acclamation as candidates of the Democratic party for Circuit Judge and Commonwealth's Attorney, respectively, of this, the Twenty-third judicial district. There were no other candidates for the nominations and the convention was very harmonious and enthusiastic.

Higgin in Suspense.

The ceremony of notification to the Independence party candidates, Higgin and Graves, which has been set for Saturday night, August 29, in New York has been postponed to Monday night, August 31.

Tarheels Organize.

Tobacco growers of North Carolina have formed a corporation to

UNION'S CHARTER

Filed at Jefferson County
Clerk's Office.No Capital Stock Provided
Debt Limited to
\$1,000,000.

Louisville, Ky., Aug. 26.—The charter of the Union Tobacco Society, an organization proposing to unite all the different tobacco bodies, has been received in the mail from Bowling Green for filing at the county clerk's office. There is no capital stock provided, as it is declared that the society is not an organization for purposes of profit. The maximum debt is fixed at \$1,000,000 and the incorporators and their respective residences are as follows:

J. W. Dunn, Whitesville, N. Y.; W. E. Bibb, Sacramento, Ky.; J. W. Swallow, Lake, Ind.; H. F. Ray, Lake, Ind.; Bradley Wilson, Madisonville, Ky.; J. M. Rice, Kirkmansville, Ky.; H. C. Hesley, Haley's Mill, Ky.; W. C. McChord, Springfield, Ky.; D. L. Pendleton, Winchester, Ky.; J. F. Doss, Greenville, Ky.; J. J. Rice, Bancroft, Ky.; M. O. Hughes, Bowling Green, Ky.; J. C. Whalen, Logansport, Ky.

Objects of Organization.

The objects of the organization are given in the charter as follows:

"The nature of the business proposed to be transacted and promoted and carrying on shall be to foster and promote the interest of all the growers of tobacco in the United States, by disseminating information relating to the planting, growing, housing, handling and selling of tobacco, and to thus, and in other means improve the quality of tobacco; to act as agents to that end; to assist in securing fair and remunerative prices for tobacco and to these ends and for the promoting of these objects to co-operate with the other tobacco societies, corporations and organizations having the same general objects in view.

"And it is the purpose and object of this organization to become the central head and general association in which all the present tobacco growers' societies, associations, corporations and organizations of the United States may unite and through which the same may act and transact business as a unit and as one body and to decide all controversies between the different organizations, members of the society, and to thus simplify and reduce to uniformity the various methods and means of producing, handling, storing and selling tobacco so far as practicable and to do all such other things as may be necessary to secure the active co-operation of all tobacco growers' organizations; and to this end and purpose this organization may have and receive as active members of its corporate organization, societies, associations, corporations, and organizations of every description engaged in the furtherance of the same objects and purposes herein set out, and it shall have all the rights and powers, privileges and authority of a body corporate necessary and proper to enable it to do and perform all the objects and purposes herein contemplated.

Governor of Organization.

"The affairs of the company shall be conducted by a board of at least nine directors, which shall consist of individual members from each society, association, corporation organization, a member hereof, who shall be elected annually on or before Tuesday after the first Saturday in October each year, by such society, association, corporation or other organization.

"The basis of representation of each society, association, corporation or other organization, a member hereof, in such board shall be one member of each subordinate organization and an additional member for each 50,000,000 pounds of tobacco controlled by such organization during the year next before the election may be held, provided that no organization shall have more than three representatives on the board of directors. But no society, association, corporation or organization shall have any representation on said board whose contracts under which it controls its tobacco do not

question arising under this clause."

There are ten societies represented, the Dark Tobacco Growers' Association, the Old Green River Association, the New Green River Association, the Onesucker Association, the Burley Tobacco Association, the Tobacco Growers' Association, the Ohio Tobacco Society and the Wisconsin Tobacco Association. F. G. Ewing was made chairman, Clarence Lebus secretary.

The organization embraces a hundred thousand tobacco growers.

Personal Gossip

Mrs. Barbara Arnold, of Louisville, and Miss Mildred Haeel, of Evansville, are visiting Mrs. Max Raubold. Misses Frank Campbell and Lee Overhiser are in Louisville for a stay of two or three weeks.

Mrs. Sam Pursley has returned from a visit to her mother, Mrs. Tuggee, in Trigg county.

Misses Kate and Mary Nuckles, of Bell, have gone to Dawson Springs to spend a week or ten days.

Hon. John C. Duffy has returned from a trip to Eddyville and Murray looking over the district with a view to entering the contest for Commonwealth's Attorney. His announcement will come in due time.

Hon. Denny P. Smith, of Cadiz, arrived in the city Tuesday night.

Mrs. C. H. Tandy is in a sanitarium in Nashville, where she underwent an operation Tuesday.

Mrs. Nell Ferris, of Corinth, Miss., is visiting her brother, Mr. W. C. Doherty.

HERE AND THERE.

The Methodists will get possession of their new building lot on Main street Sept. 1st. The first thing to be done will be to move the residence and get ready for the church.

Early tobacco is being cut and the crop is in fine condition. There have been but few worms this season.

Quiet in police circles this week.

The city schools will start up next week.

Drs. Oldham, Osteopaths, 705 S. Clay St., Hopkinsville, Ky.

Barnett & Thompson, the new concrete firm, has been awarded the contract for laying a large lot of sidewalks in Pembroke.

The concrete sewer at the intersection of Virginia street and Fourth Avenue has been finished. It is the first concrete sewer to be built in Hopkinsville, and is 50 inches wide, 36 inches deep and 60 feet long. The Meacham Contracting Co., were the contractors.

NOT NIGHT RIDERS.

But Retaliators Suspected
In This Case.

Clarksville, Tenn., Aug. 26.—The blowing up of a sawmill with dynamite has created considerable excitement near Marion in Dickson county, where the mill is located. Thomas Edwards owns the mill, and it is operated by N. B. Harper. The report that it was the work of the night riders is not believed, as the owners and every man employed at the mill are staunch association members. About two weeks ago Mr. Harper received a written notice not to employ any "hill billys."

He went to all of his men and told them he wanted them to sign the pledge, and all except two signed. He then discharged these men, and had none but pledged association men at work since. Pieces of the stick of dynamite were found, leaving no doubt as to how the deed was done. Mr. Harper says he believes his guilty man located, and will bring him to justice.

His Ideal

By DESTA
E. BROWN WOODS

Copyrighted 1908, by Jessie Morgan

"Now, Harry, honestly you don't be that?"

"Yes, I do. A true woman is always a coward. Brave is a masculine adjective, incapable of being used with a feminine noun."

"Oh, both! You are old fashioned, my boy."

"I grant you—medieval, in fact—but neither John of Arc nor Boudicca stir my heart like a certain little girl I have fallen in love with. She picks her finger with it."

"That's what it is to be in love. Your ideal is based on what you think to be Miss Osborne's character. Now, for my part, I believe that young lady capable of heroism."

"And I tell you, George Evans, that the very thought of physical pain turns me sick. I am not a coward, but I am of mortal courage—well, I could strike my mother in her face. She has such a high ideal of truth and honor. She is so—"

"Oh, yes, yes! Spare me! Remember I am not in love."

An hour later he was sitting with his fiancee, a puzzled, pained expression on his face.

"I don't think I understand you," he said slowly. "You don't mean that you told your father the money was for charity when you were spending it on this silly speculation?"

Jessie Osborne's pretty cheeks were very pink.

"Well, I thought it a good investment, and father never lets me try stocks."

"But, Jessie, you have been deceiving him for months."

A pair of little white hands flew to the pink cheeks.

"Oh, I'm sorry! I'm miserable, and you don't care," came in broken sobs.

"There, there," he said, "I'll give you the soft form in his arms."

JESSIE AND HER FAVORITE ROPE WERE SAFE IN HARRY'S GRASP.

It's meant to be cross; but, my darling we must be honest. We must love each other to be true and morally brave."

"Of course," he mused on the way home, "her father must have known from the first what she was doing and she must have given him lessons by allowing her to go about her little girl, she didn't mean any harm, but I am disappointed. I didn't think her capable of the slightest deception."

As he turned the corner leading to his boarding house the light streamed out from Dr. Gordon's office, and he stopped in for a moment's chat.

"I say, Nell, you don't look well. What's the matter?" the doctor inquired.

"Oh, I believe I have nerves, and I haven't slept well lately."

"You had better let me give you a sleeping draft and then take a week's rest."

The sleeping draft had the desired effect, and scarcely had Harry's head touched the pillow when he was wrapped in deep slumber. After a time he was dimly conscious of a hum of voices in the street below. The room was hot, and he tossed off some of the sedative. His throat ached, and his head ached. There was a strange swelling in his ears. He struggled to ease himself, but it was too great an effort, and he lay dreamily listening to the voices below.

"I tell you, Evans, Nell is in his room," came in terrified tones from Dr. Gordon's office. "She has been in there since the doctor left, and she has never wakened him."

"We must take a rope to him," said Frank. And Harry wondered vaguely at the unaccustomed ring in his friend's voice.

"But how?" Again it was Dr. Gordon's voice. "The front verandas are all in flames."

"We must reach her by means of the new building? That beam runs parallel with its room."

"It would be madness," exclaimed Mr. Osborne. "The beam wouldn't hold your weight. See! It has burned through at the end next the Nelson house."

Was it all a nightmare, Harry wondered, as was it an awful dream? But the next moment which rescued him from the vision from his brain was a

men, but I can go. I weigh only nine pounds. I'll take the rope," came in Jessie's well loved voice.

Nell rushed to the window and hurriedly sized up the situation. His room was in the corner of the third floor of the house and one at the side. From the front window he could see the firemen at work. The verandas and whole face of the house were a mass of fire and smoke. Water from the hose played on the blare, but the crackling of the flames came like the laughter of a victorious army.

He reached the side window. A new building was in process of construction, but the skeleton structure had already caught fire.

The smoke cleared for an instant, and the crowd below caught sight of him. He recognized the faces of Mr. Osborne, George Evans, and Dr. Gordon. Life was sweet. Was there nothing? And again he scanned the new building.

Some one was coming to him—a girl in a jersey waist and short tweed skirt, carrying in her hand a coil of rope. Her face was flushed for a moment, and he recognized Jessie Osborne. "Well, mind, little Jessie amid the fire and smoke!" She must not come farther, and, placing his hand on the window ledge, he prepared to descend.

"Stop, you fool!" came from below. "Nell, for any sake, don't put your rope on that window. It is death for you!"

Convinced that Evans was right, he paused and watched the girl below. Light and agile as a kitten, she climbed from beam to brace and from brace to beam.

A few hours before he had boasted of his strength and bravery, yet here he stood, compelled to stand with folded hands while this mate of a girl brought him succor. The heat was intense and every nerve was strained to the utmost as he watched the approaching figure. One wrong step meant death.

Aved silence fell upon the watching crowd, but Jessie had reached the second story in safety and then advanced cautiously. Her hand was gained. She placed her foot carefully on the last beam and then slowly transferred her weight to it. There was a sickening crack, then a sudden lurch, which caused Harry to cover his eyes with his hands. But a shout from George Evans saved him from the fall. The beam had only sagged, and Jessie was walking steadily toward him.

He leaned over the window ledge with outstretched arms. A moment's awful suspense, and then, with a little cry, she sprang to her lover's embrace. As her foot left the beam the huge skeleton gave way, but Jessie and her precious rope were safe in Harry's grasp.

To fasten the rope and lower his preserver to the frenzied below was the work of a moment; then, hand over hand, Harry descended the improvised fire escape. He felt himself seated and carried away from the scene. He heard a cordon of firemen and sobs, and then consciousness left him.

When he came to himself he was lying on a sofa in Mr. Osborne's home, with Dr. Gordon and George Evans beside him.

"Jessie?" he queried faintly. "Is safe and well?" Dr. Gordon replied. "She escaped from the burning building, and her father has carried her almost by force to her room to get the rest she needs. In fact," he added, "you monopolized the woman's right of fainting."

"It was that confounded dope of yours," Harry retorted.

"It came near costing your life; but, you know, you are good. Your injuries are very slight, although your bandages look formidable. The burns are only surface burns and won't even spoil your beauty, and now I must go to Miss Osborne."

As the door closed on Dr. Gordon, George Evans turned to his friend.

"What you say about Miss Osborne's sex life is all right, but admit like a man that I had a true estimate of her courage. Or, say," he added jokingly, although there was a suspicious tremor in his voice, "perhaps the engagement is called off since you don't admire that type."

"I say, take about it, George," Nell answered gaily. "The type of girl I pictured is all right in theory, but—

Marvin of Memory.

"The phonograph is wonderful enough, but the human brain is vastly its superior, as it has been shown to have stored up for forty-five years the thoughts actually passing through it and the speech resulting therefrom."

"A boy in a village in the Tyrol when fifteen years old went to his father's field to catch a frisky colt. When about to place a halter about the animal's neck it kicked him on the head. The wound healed, but the use of the boy's reason did not return. For forty-five years he lived in the village, a simpleton, a fool, a dotard."

"Then a prominent German specialist who passed through the village on a holiday offered to experiment. Finding that a portion of the skull had been forced into contact with the brain, he by skillful operation removed the pressure. The boy once regained his reason, and his first utterance was an effect of the anesthetic were off—'Did the colt get away?'" Detroit News-Tribune.

The Young Physician.

WHAT HIS EXPERIENCE PROVED

In the early sixties it was usually the custom for the physician to travel many miles every day on his regular round of visits upon his patients. In those days of spindly medical training in one of the best medical colleges of that day was accustomed to visiting the sick and ailing more frequently than once a week. His success was soon phenomenal. Doctors and families flocked to him for his services. He had early discovered his specialty was the cure of chronic diseases, and by combining the extracts of the following medicinal plants in just the right proportions he was enabled to cure such cases. Later, in order to place this secret in the hands of others who could not be expected to procure it, he established a laboratory at Buffalo, N. Y., where regimens of various plants were prepared in charge to accurately prepare his "Prescription" and put it in just the right proportions. He also made his "Prescription" always invariably cured such cases. Later, in order to place this secret in the hands of others who could not be expected to procure it, he established a laboratory at Buffalo, N. Y., where regimens of various plants were prepared in charge to accurately prepare his "Prescription" and put it in just the right proportions. He also made his "Prescription" always invariably cured such cases. Later, in order to place this secret in the hands of others who could not be expected to procure it, he established a laboratory at Buffalo, N. When Day Is Done.

By W. F. BRYAN.

Copyrighted, 1906, by M. M. Cunningham.

Somewhere at the other end of the room a gong clang'd out its harsh brazen note, and soon the hum of industry and the clatter of machinery gave way to the clang of tongs as the operatives shut off the power from their machines.

As they gathered about the inspection desk to turn in their day's work the great shafts overhead ceased their whirring and the sharp rums they had sung all day ended in a descending scale as the momentum died out. The day's work was done.

Now the girls were hurrying toward the wash room, a screened compartment, supplied with an iron sink, cakes of yellow soap cut to convenient size and a few rolled towels of coarse cotton cloth. There was room for but a dozen at the sink, and, urged by the waiting line, the girls cut the absolutions short and precipitously.

When they had changed their working clothes for cheap and garish street

"IS IT REALLY YOU, JACK?" SHE ASKED WONDERRINGLY.

finely descended in the elevator to the street, where the men employees were waiting for the favored few.

Ida had a few moments to herself and slipped on her worn, dark skirt and frayed jacket. It was growing too warm for a coat, but she could not afford a new waist just now, and there were patches in the elbows of the old one. The jacket was at least whole save on the edges, which now defied further patching.

For more than a year she had followed the regular factory routine, yet she had never become accustomed to this rush and tumult of the streets when the mountainous buildings suddenly disgorged their hordes of workers into the narrow canyons below.

The hurrying armies, fighting their way through the streets, had terrified her, and as she found herself caught in the tide bound for home, she gave a little sigh of relief.

It would be all right until the corner was reached, when the cross current of humanity again would be encountered. She had to stop. She thought of the big man tide. She thought of the quiet country lanes of home and how the sun was now shanting across the fields, just turning green under the warming sun.

Hers had been great hopes when she had left the country for the city. She had a good job, a good home, and a typewriter while she supported herself at lighter clerical work. But there had been no office vacancies, and her fast vanishing funds had forced her to have recourse to the factory, where her back was soon wrenched and strained and her fingers twisted and tired from handling the heavy material she forced through the speeding machines.

It was vastly different from the machine work at home, for the factory exacted the utmost work from each machine, human or iron, while a sharp-eyed forewoman prodded up and down the rows to be sure that no one any who failed.

Ida's hands were too stiff to hold a pencil after the day's work was done, and the dreams of advancement had to be forgotten in the necessity of the moment; but though her muscles ached and her eyes seemed to burn in the sockets, she would not give up. She did not go back to Carsonville and confess failure.

She blushed as she thought of what going back meant. She had come to the city because Jack Deering had scolded at the idea of her earning her own.

Some unfortunate twist of his words had given Ida the belief that he offered himself only because she was left alone in the world, because of pity for her condition. She was too proud to admit her love when he did not confess his own affection.

Leering, looking only on the practical, had not been able to understand that he had been refused because of her belief that he did not love her. He had supposed that of course she knew how dearly he cared for her, and he had not thought it necessary to tell the oft-told tale. So he had allowed her to go.

Ida had not lost her fresh coloring in the heat, but hardness and the fear of the great masses of men and women homeward bound was added the dread of an encounter with one

factory girl because they dress well.

More than once she had felt a hand placed familiarly upon her arm or had hurried on to escape the running fire of talk from a man who had dropped into step beside her and had persisted until a policeman came in sight.

Tonight Ida was frankly homesick. There was something in the breath of spring air she had though it was by the rest of pavements and the nose of smoke.

Back in the old days, when home was a home and not a hole in the wall, when she trod green earth and not the hard stones of the pavement, that was the hour she liked the best, when the day was done and the even shadows changed into the purple night.

It was not often that Ida let herself get homesick, for those who would work by day must not cry all the night, but with this subtle suggestion of home in the air and in the sky the tears were in her eyes.

Ida had dressed quickly with its roar of traffic and its rush of humanity, was passed successfully, and Ida did not notice that a man turned out of the counter current and hurried after her as rapidly as he was able.

Not until a hand closed upon her arm did she realize that she had been followed. She turned, her eyes wide, her slender shawl, but a second time the hand fell upon her arm, and she turned with a little cry.

"Please let me go," she said, while the tears blinded her eyes.

"Not much," was the triumphant answer. "I've spent too much time looking for you to let you go now that I have found you."

With a quick movement of her hand Ida drew the tears from her eyes and looked up into the laughing face. It was not a handsome face. The sun had burned the skin to a deep brown, and the brown was wrinkled by lines of care, and the high cheek bones and the hollows of the cheeks gave to the face a ruggedness redeemed only by the kindly smile of the sensitive mouth and the twinkle in the clear gray eyes, but to Ida it was the face in all the world she most desired to see.

"It is really you, Jack?" she asked wonderingly. "You're home again?"

"It's me, unless I've been changed in the last half hour," declared Deering as he smiled down into the upturned face and his eyes filled with pity as he noted the signs of care that marked it. "I've been looking all over for you. You never wrote but once, and you don't write any more. I left Jethro to do the plowing and planting, and I came down to look for you. It was a hard job, but I found you."

"And now that you've seen me I suppose that you'll be content and go back to the planting," suggested Ida.

"I'll go with you," agreed Deering. "If you won't, I'll settle down here, for I love you too much, dear, to let you run away from me again."

"You love me?" she asked wonderingly.

"Of course," was the prompt response. "There isn't a man, woman or child in Carsonville that doesn't know that."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You won't like to be told," explained Ida.

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You won't like to be told," explained Ida.

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"Did I have to tell you that?" he asked in astonishment. "I supposed you knew."

"You never told me," she admitted. "You wanted to marry me because I needed some one to take care of me."

"Did I have to

LOSS WAS HEAVY

Park Bandit Will Probably Make Good His Escape---
Another Hold-Up.

Livingston, Mont., Aug. 26.—The total loss to the passengers in the coaches held up Monday in the Yellowstone Park by the lone highwayman is now estimated at \$10,000 in money and an equal value in watches and jewelry.

The robber has not been apprehended, although Major Allen and a detachment of soldiers and scouts have been out on the trail all night. The chances for his escape are good, as the point at which the hold-up occurred is near the Jackson Hole country, famous as a refuge for criminals, and is reached from that part of the park by several different routes.

This, combined with the start the bandit gained while the coaches were making the drive of fifteen miles to the lake, makes his escape seem almost certain. On their arrival at the lake the victims notified the troops and search was at once instituted, and later with reinforcements from Fort Yellowstone.

Another Hold-Up.

Helena, Mont., Aug. 26.—A stage between Cody and Meeteetse, Wyo., has been held up and robbed of \$1,500.

Tourists Robbed.

A lone highwayman held up seven coaches of tourists in Yellowstone Park and compelled them to turn over their valuables to him.

It is understood that he collected in all more than \$10,000. The fact that tourists in the park are not permitted to carry weapons made it impossible for any of the passengers or drivers to offer resistance. The robber was a man about 55 years old, weighing about 140 pounds. After holding up the last coach he disappeared into the hills, and it was afterwards found that he had made his escape on a horse belonging to the transportation company.

BOARD TO QUIT.

Dr. Arthur McCormack Is Tipped to Get the Place.

Lexington, Ky., Aug. 26.—It is reported here that Dr. Milton Board of Breckenridge county, has signified his intention of resigning as a member of the State board of control of charitable institutions.

It is said that Dr. Arthur McCormack, of Bowling Green, will be appointed to succeed him. Dr. McCormack is a son of Dr. J. N. McCormack, of the Kentucky board of health.

Dr. Board was appointed by former Gov. Beckham. His term of office expires in January, 1909.

Announcement.

Miss Emma Noe announces to her friends that she will open a class in voice culture. For particulars call at Hotel Latham after Sept. 6th.

To Keep Salt Dry.

"To prevent salt in saltcellars from becoming damp and lumpy, when filling them put in ten to twelve pieces of rice" says Woman's Home Companion for September. "This will not come through the holes in the cover of the saltcellars, but will break the lumps of salt and gather the moisture; thus the salt is always dry and fine."

SUGGESTION!

Don't you think it's time to place your order for a FALL SUIT and OVER-COAT.

Come around, place your order now and have your suit delivered when you wish.

The Witt Company,

INCORPORATED.

AGED MINISTER

Succumbs to Over-Exertion at Frankfort.

Frankfort, Ky., Aug. 25.—The Rev. Thos. N. Arnold, one of the best known ministers of the Christian church in the South, died suddenly here yesterday. He ran to catch an interurban car to go to Versailles to conduct a funeral. The exertion was too much for him. He was 84 years of age.

The Rev. Dr. Arnold was educated at a school in Maysville, and was a classmate there of U. S. Grant. Mr. Arnold was prominently connected with the scenes incident to the Goebel tragedy, as he was one of the two ministers who attended the sessions of the State Senate during that stormy session of 1889 and 1900. Mr. Arnold was one of the ministers who preached the funeral of Wm. Goebel.

UPLIFTING OF RACE

Is Object of Christian County Colored Civic League.

Headed by several of the most prominent members of that race, the negroes have organized what they call "The Christian County Colored League," which has for its object the uplifting and improvement of the moral and social conditions of that people. In their first public address they refer to the friendship established between the white and black man in slavery and which has been maintained until the present time, but especially do they decry idleness and appeal to the general public for assistance in improving their race in this manner, in the following words:

"Since idleness is the one successful breeding of crime and criminals, the object of the Civic League is to teach the young negro that there is dignity in honest toil; to obey the law; to bring themselves into the circle of some moral influence; to seek the friendship of those with whom he may come in contact daily; to keep inviolate the exactitudes of the moral law and thus merit every guarantee made under the law for the protection of life and property. We urge upon our people to close their doors against the evil doers and compel them to amend their ways or leave the community, thus insuring us against any possible friction which might occur by reason of their continued presence among us. We congratulate ourselves in Christian country that we have not been the cause of any local disturbances, directly or indirectly, that have in any way unhung the harmony or peace of the land. We desire and ask the friendship and co-operation of our white neighbors, regardless of political parties, in our efforts to make Hopkinsville and Christian county the best place on earth to live in for those who obey the law.

"We ask the land owners and farmers throughout the country to give every advice and inducement possible to keep our people on the farms where they can earn an honest living by honest toil. The Civic League desires to co-operate with the country farmers in their efforts to secure responsible laborers, and any suggestion from the farmers as to the proper course to pursue will be thankfully received.

"With manse toward none, but charity for all."

Hopkinsville beat the Cadiz baseball team at Cerulean Sunday by a score of 8 to 3.

REV. HUGH GREGORY

In Imminent Peril as Missionary in India.

A letter has been received by the mother of Rev. Hugh Gregory, a missionary in India, that is causing her great anxiety. It was written about a month ago and said he was expecting to be killed any day. Trouble had arisen over the killing of two natives and the missionaries were in some way blamed and were being threatened with death. Mr. Gregory is a son of the late H. C. Gregory and went to India two years ago as a missionary of the Methodist church. He married a missionary and his family consists of a wife and one child. He is about 22 years old. He stated in the letter that it would probably be the last he would ever write, as he was in a health section with no way of getting away.

IN FEDERAL COURT

Negro Seeks Damage Against 71 Alleged Night Riders.

Paducah, Ky., Aug. 26.—Another damage suit has been filed in the United States Court here as a result of the night rider raid on Birmingham, Marshall county, March 10, in this year.

The plaintiff is Nat Frizzell, a negro, who alleges that his home was shot into and that he was taken out, after being shot in the head, and unmercifully beaten.

He states he was ordered to leave, and that he is now a resident of Massac county, Illinois. The amount of damages asked is \$25,000, and there are seventy-one defendants. This is the third suit brought as a result of this raid.

OFFICIAL CALL

For the Coming Election of Committeemen.

To the Members of the Planters' Protective Association of Kentucky, Tennessee and Virginia:

Please take notice that it is your duty to meet at your respective voting precincts on Saturday, September 5, 1908, at 2 o'clock p. m., of said day, to elect a precinct chairman, for said respective precinct. No one, but those who have pledged their tobacco to the Association, to be sold by it, has a right to vote in said meeting.

Said precinct chairmen will there meet, at their respective county seats, at the Court House on Saturday, Sept. 12th, 1908, at two (2) o'clock p. m., of said last named day, and elect one of their number, county chairman for said county, who will be elected Director of this Association for the ensuing year.

Yours truly,
(Mrs.) N. E. Greene,
Secretary.

By order of the Planters' Protective Association of Kentucky, Tennessee and Virginia.

Guthrie, Ky., Aug. 22, 1908.

MUSICAL

For the Benefit of Methodist Church.

A musical will be given for the benefit of the Methodist church by Miss Emma Noe, Dr. Ray Means and Miss Katie Means in the parlor of Hotel Latham on the evening of Sept. 7th, at 8 o'clock. Small admission.

SERGT. BUTLER

Is Promoted to a Good Place at Frankfort--Fine Young Soldier.

Riley B. Butler, a Sergeant in company D, of this city, has been appointed to the position of custodian of the State Arsenal at Frankfort, and he has already gone to that city to assume his duties. The position pays \$600 per year and all expenses.

Mr. Butler's home is at St. Charles, Ky. He was graduated last spring from South Kentucky College, and besides his connection with the State militia he was captain of the college cadets during the last session of the school.

He was one of the soldiers called into active service following the raid of last December and had been on duty practically ever since. Recently he has been stationed at Cobb and has been one of Maj. Bassett's most valuable men in maintaining order in the storm centers of the night riders.

Sells Farm.

J. F. Ellis has sold Jesse A. Payne's farm, 7 miles west of the city.

CLARKSVILLE MAN

Commits Suicide Over Financial Reverses.

Clarksville, Tenn., Aug. 26.—B. G. Hunter, aged 84 years, committed suicide by swallowing laudanum. He was a well known merchant, of Van Leer. His mind had become affected while brooding over financial reverses. He left letters addressed to his wife and the public, giving the amount of his resources and liabilities, and saying he could not stand to see his wife and children turned out of doors after having worked so hard.

He states he was ordered to leave, and that he is now a resident of Massac county, Illinois. The amount of damages asked is \$25,000, and there are seventy-one defendants. This is the third suit brought as a result of this raid.

He left letters addressed to his wife and the public, giving the amount of his resources and liabilities, and saying he could not stand to see his wife and children turned out of doors after having worked so hard.
